Detailed Action

Drawings

The Examiner accepts the drawings filed on February 5, 2001.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-33, 41-42, 56-74, 95-116, 136-157, and 176-191, drawn to numeric object in relation to mathematical relationships, classified in class 705, subclass 35.
- II. Claims 34-40, 43-55, 75-94, 117-135, and 158-175, drawn to icons in relation to visual display, classified in class 715, subclass 839.

The inventions are distinct, each from the other because:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as icons in relation to visual display. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mark Guttag on September 26, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made. Examiner was not able to reach Mr. Guttag.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
